To Make 1 Wonder Tree Ornament You’ll Need:

- A handful of poly-fill.
- Two solid and one printed rectangle 2 1/2” x 5 1/2” each.
- Ribbon: 1/2” x 7”
- Twine: 6”
- Ribbon: 1/2” x 2 1/2”
- Four strips 7/8” x 6 1/2”
- Plus one strip 4” x 7/8”
**Step 1:** Sew the two solid rectangles to either side of the printed rectangle. Use 1/4” seam allowance. Press seams open.

![Diagram showing the two solid rectangles sewn to the printed rectangle]

**Step 2:** Cut two trees using template. The template measures 5 1/2 in length. 3” wide at base. 1/2” wide at top. Mark center line so that you can easily line template with center seam of fabric.

![Diagram showing the cutting of the tree template]
**Step 3:** Add white sashing to all sides of both trees. Center a 7/8” strip to one long side of tree. Sew to attach. Press fabric towards white sashing. Repeat on other long side.

**Step 4:** Add white sashing to bottom of tree. Center 7/8” x 4” sash on bottom and sew on. Press toward white sashing. Repeat so you have two sashed trees.

*Note:* If the 7/8” measurement is not to your liking, make it an 1”. You’ll simply have a tick more white border around the tree.
**Step 5:** Baste stitch the twine onto front right side top of tree.

**Step 6:** Fold ribbon in half and align unfinished edges at center of tree base. Baste stitch the ribbon onto front bottom of tree.
Step 7: With right sides facing, put the two trees together. Pin well. Sew around edges leaving a 2” opening at one side for turning right side out.

Step 8: Turn tree right side out. Press well and fill with a small handful of polyfill stuffing. Hand stitch the side opening closed.

Step 9: Tie the 7” length of ribbon to top of tree.

You’re finished! Use as a tree ornament or gift topper!
